1. Regarding paragraph 5f: This information is disseminated on a need-to-know basis to CIA stations and bases required for support of a specific mission as far in advance as possible (reference DIR 49382 OUT 57757). When USAF support is required the pre-mission information is sent from Headquarters USAF to PACAF and 5th Air Force or 13th Air Force as the operation may require.

2. Regarding paragraph 10: This problem unfortunately can not be resolved without considerable coordination with the Far East Division. [redacted] has initiated action to obtain that Division's concurrence in following recommended actions:

a. Preferably augment T/O with sufficient operations personnel to cover both locations; or

b. Augment communications T/O to provide 24 hour communication between locations; or

c. Rely on longer range WX forecasts.

3. Regarding paragraph 11a: Concur in this recommendation. Our position was stated in 28 September cable to [redacted] same subject.
